

# SPRINGBOK STAMPEDE

**WE HAVE  
A GOAL**

Presented by Moral Re-Armament

# SPRINGBOK STAMPEDE IN ACTION

## WE'RE STARTING ON A NEW TREK!

SPRINGBOK STAMPEDE is a two-hour musical show expressing the aims and convictions of hundreds of youth. Its vigour and talent have brought thousands to their feet, cheering and clapping for more, in all four provinces.

The Johannesburg daily, **The Star**, wrote: "Seldom in Johannesburg has a group of youngsters so positively captured an audience — three curtain calls, a five minute long standing ovation — the hall trembled with applause." But it is more than a show. SPRINGBOK STAMPEDE is an expression of our faith in South Africa's future and her role in the world. We are interested in the next twenty-five years. As the most developed country in Africa, we have a responsibility and a unique task in this continent. We do not want to become so preoccupied with our own affairs and problems that we fail to grasp this great opportunity.

We must answer the hatred, the corruption and the division in this continent. This is the challenge we put before our country. It will take sound moral character, determination and freedom from fear.

The moral re-armament of our generation is just the beginning. We are working and planning for the development of the whole of Africa, so that independence will be based on the freedom to obey God and choose what is right.

This work has expanded so rapidly that a permanent group has now been created. From our training centre at Bryanston, between Johannesburg and Pretoria, we will take SPRINGBOK STAMPEDE throughout South Africa.

## OUR BELIEFS

- ★ We believe that, as part of Africa, our country must share the responsibility for the development of this continent.
- ★ We believe in the dignity and talents of every tribe and race in Africa, and that together we can end violence, dictatorship and Communism.
- ★ We believe that God must be restored to leadership as the directing force in the lives of men and nations.

## OUR AIMS

- ★ To give youth a purpose and to create incorruptible leadership for the future.
- ★ To create united homes.
- ★ To offer industry a common purpose for labour and management.
- ★ To break down barriers of distrust, hate and prejudice, and to establish sound contact between South Africa and the rest of the continent.
- ★ To take South Africa the next step forward — the spiritual and material development of our continent.
